ZIFAN YE

970 Sidney Marcus BLVD NE | Apt.2119 | Atlanta, GA, 30306

(404)5196653|yezifan911@gmail.com

Education

Emory University, Rollins School of Public Health | Atlanta, GA | May 2024— Present
- Master of Public Health Epidemiology
- Core courses: Bio-statistics, Epidemiology, Data Science

NiHon University, Business School | Tokyo, Japan | May 2023 — April 2024
- Master of Business
- Core courses: Marketing, Theory of Consumer's Behavior, Innovation Theory

Forestry College of Hainan University | Hainan, China | September 2016— May 2020
- Bachelor of Landscape Architecture
- Core courses: Architecture, Landscape Design, Environmental Science

Research Experience

Carotid Artery Stenosis Predictors
Seasonal Class project at Emory University | Atlanta, GA | Apr 2025

• Processed and analyzed demographic and clinical data for 300 patients using SAS
• Developed multivariate logistic regression models incorporating 15+ risk factors to calculate adjusted odds ratios, 95% confidence intervals, and significance values
• Identified hypertension and smoking history as strongest independent predictors for carotid stenosis
• Created data visualization dashboards to communicate findings to clinical research team

Cardiovascular Disease Risk Analysis
Seasonal Class project at Emory University | Atlanta, GA | Nov 2024

• Conducted comprehensive analysis of electronic health records for 300 cardiac patients using RStudio
• Performed chi-square tests and linear regression modeling to quantify diabetes-heart disease associations
• Demonstrated significant correlation between HbA1c levels and coronary artery disease severity

The relationship between consumer behavior and brand identity: consumer participation in Corporate Social Responsibility (CSR) activities as a variable (Capstone Project)
Capstone Project at Nihon University | Tokyo, Japan | Apr 2024

• Conducted experimental study on CSR participation effects using 2x3 factorial design
• Developed brand stimuli and collected 312 valid responses via WeChat surveys
• Measured brand attitude, purchase intention, and loyalty using 7-point Likert scales
• Analyzed data with ANOVA and mediation models in SPSS
• Identified that active CSR participation strengthened brand identification through cultural belonging

Wuyuan River Wetland Park Ecological Redesign
Capstone Project at Hainan University | Hainan, China | May 2020

• Designed an ecological renovation plan addressing water pollution and visitor flow through rainwater garden systems and optimized zoning

• Conducted comprehensive site analysis (via Arc GIS), created technical drawings (via Auto CAD), and developed 3D models (via Sketch Up)
• Produced visual comparisons (via Photoshop) demonstrating water purification and circulation improvements
• Selected native vegetation for effective phytoremediation while enhancing visitor experience
• Delivered complete design package including plans, analysis diagrams, and renderings

Working Experience

Sichuan Province Data Center
AI Application Developer (Intern) | Chengdu, China | May 2025 - Present

• Deployed a local Large Language Model (LLM) service handling 1,400 daily complaints via vLLM
• Optimized prompt templates through 12 iterative tests, improving text recognition accuracy from 80% to 85%
• Built a lightweight front-end with React and Vite for internal testing and user interaction
• Compiled daily operation logs and documented model recognition errors for team analysis

Changzhou Jintan First People's Hospital | Jiangsu, China | Jul–Sep 2020
Research Assistant Intern

• Analyzed COVID-19's impact on neurosurgery residency training across 4 Tier-A hospitals
• Designed and distributed surveys to 50 residents; conducted interviews on pandemic-era clinical practices
• Identified issues regarding training resource shortages (e.g., simulation access) and mental health challenges
• Presented findings to faculty mentors

Wuhu Center for Disease Control and Prevention | Anhui, China | Jul–Sep 2019
Public Health Intern
• Collected and analyzed multi-region water samples to assess drinking water safety via physicochemical & microbiological testing
• Conducted retrospective cohort study (2013-2018) on school absenteeism causes among K–12 students

Leadership Experience

Haikou Nursing Home
Student Leader | Hainan, China | 2016- 2019

• Organized and led 29 students in monthly visits to local nursing homes
• Developed interactive activities (music performances, craft workshops) for elderly residents

Student Union，Hainan University
Director of External Relations | Hainan, China | 2016- 2018

• Managed an 8-member team for university event planning and corporate partnerships
• Organized school events such as University Sports Day (with 500+ participants) and Top 10 Singers competition
• Secured ¥50,000+ sponsorships and 8 local business partnerships

Skills

- Fluent in Mandarin, Japanese
- Proficient in R, SAS, SQL, ArcGIS, Python
